- (viii) Which is the most disturbing aspect of the water pollution problem ?

## **UNIT-II**

2. Read the passage carefully and answer the questions given below : [10]

We seek no narrow nationalism. Nationalism has a place in each country and should be fostered, but it must not be allowed to become aggressive and come in the way of international development. Asia stretched her hand out in friendship to Europe and America as well as to the suffering brethren in Africa. Asia has a special responsibility to the people of Africa. We of Asia must help

them to their rightful place in the human family. The freedom that we envisage is not to be confined to this nation or to a particular people, but must spread out to the whole human race. Universal human freedom also cannot be based on the supremacy of any particular class. It must be the freedom of the common man everywhere and full opportunities should be given him to develop.

Questions :

- (i) Why is the author against narrow nationalism ?
- (ii) Why does the author think that Asians have a special responsibility to the people of Africa ?
- (iii) How does the author define freedom ?
- (iv) To which continent does the author belong?
- (v) Give a suitable title to the passage.
